

Post Diploma Course in Tool Design

Duration: 1 Year

**Eligibility: Diploma, Degree, BTech
(Mechanical Engineering, Automobile, Tool & Die Making,
Industrial Engineering and similar courses)**

About Us

Supported through a World Bank reflows programme, the German Chamber of skilled crafts, Koblenz, Germany and Indian industry; Anjali foundation (through the brand name of Kiki Centre for Technology) has established a high quality, international standard skill development centre at IMT Manesar, Gurgaon, Delhi-NCR.

The institute focuses on developing skills with the support of German experts. Some of the features of the training centre are as follows:

- 55,000sq feet training centre with well-equipped classrooms and workshops with computers, projectors, learning software, simulators and industrial equipment
- Continuously updated learning and teaching material
- In certain advanced courses such as tool making, mechatronics and precision machinist, students are skilled to international standards and certified dually by the Government of India, MSDE and by the German Chamber of Skilled Crafts, Koblenz, Germany

An overview of our facilities are listed below:

Machinery	Software	Classroom	Other
Fitting	Autocad	Air-	Library
Lathe/ Turning	MoldFlow	Conditioner	Canteen
Milling	Unigraphics	Projector	Recreation Centre
Drilling	Various simulators	Board	
Surface grinding			
Cylindrical grinding	Didactical equipment		
Tool and cutter grinder	Hydraulics		
CNC lathe/ Turning	Pneumatics		
VMC	PLC		
3d CMM	Mechatronics		
EDM	Laboratory		
Wire EDM	Electrical Lab		
5-Axis CNC	Electronics Lab		
Welding Centre	Material Science		
Mig welding			
Tig welding			
MMAW Welding			

Area of training	Post Diploma Course in Tool Design	Course Duration	1 Year (2 semesters)
Training method	Kiki Centre for Technology only	Days	Mon-Fri
Pre-qualification	Diploma, Degree, Btech in Mechanical Engineering, Automobile, Tool & Die making, Industrial Engineering and similar courses	Cost per semester	60,000 (Taxes additional)

Objective

- To provide Tool design knowledge to persons who have a background in a relevant trade. Students learn to understand machine capabilities, limitations, concepts of tool design, calculations and relevant design and simulation software.

Contents overview:

- Engineering Metrology
- Material Science
- Heat Treatment
- Selection of Tool Steels
- Engineering Drawing
- Geometrical Dimensioning and Tolerancing
- Autocad 2D
- Unigraphics or Pro E (3D)
- Machine Calculations
- Machining Capabilities and Limitations
- Lathe
- Milling
- Drilling
- CNC Turning
- VMC
- EDM
- Wire EDM
- Manufacturing Process and Planning
- Tool automation (Sensors, Pneumatics, Hydraulics)
- Quality Control
- Jigs & Fixture Theory & Design
- Press Tool Theory & Design
- Injection Mold Theory & Design
- Mold flow analysis (for Mold Design)
- Tool Costing

Note: Self Study will be required

Additional time will be required for assignments

Valid for courses starting in 2018

Other information

Admission

Students may register by filling in the attached open-enrollment forms for Short term Courses. Admission is subject to sufficient enrollment, availability of seats and payment of course fees prior to start of course. The centre reserves the right to alter eligibility criteria or apply screening methods if it so desires.

Eligibility norms

Eligibility norms are decided as a general guideline. Simply fulfilling the eligibility criteria does not guarantee successful completion of course. A participant willing to take up any course shall himself/herself satisfy that he/she shall be able to grasp the contents of the course to progress in his/her professional career.

Certificate

For successful candidates who fulfill all criteria, a certificate is awarded. A minimum of Pass in all subjects together with 85% attendance for the course is required for certification. Issue of certificate is subject to student's evaluation and is not a right, simply because student has paid the fees. A certificate will not be awarded if the student fails to achieve the minimum attendance or fails evaluation criteria or has disciplinary issues.

Placement

The Careers office at the institute supports all candidates who have successfully completed their course for placement at various companies. It does so by sending out resumes of candidates to relevant companies and organizes campus and off-site interviews.

The likely salary stated is estimation only and may vary from company to company and by location.

Damage/loss to property

The candidate has to pay the institute for any damage or loss of property. The student may be denied continuation of training and / or certification, till the payment has been received from the student.

Uniform

The institute has no uniform for Post Diploma courses but it does have a dress code. More information on this is available at the time of joining.

Boarding and lodging

Accommodation with food is available in the surrounding area. During the time of admission, it must be informed to the institute, if the candidate needs support with boarding and lodging. If so, the institute can support the candidate in finding accommodation. Prices generally range from Rs. 5000-6000 per month, which may be paid directly by the candidate to the boarding and lodging facility.

General rules

The student is bound by all the rules of the institute as laid down by management from time to time.

Violation of rules may lead to warning, suspension or termination of training depending on the seriousness of the case.

Students may be required to train in shifts and should be prepared to do so.

The institute deserves the right to alter, modify or change the duration and/ or contents of the course.
